- TRAFFIC IMPACT ADVISORY -

Kentucky Power line work to affect traffic along US 23 at Raceland

ASHLAND, KY, Aug. 1, 2011 – Vehicular traffic along U.S. Route 23 at Raceland, in Greenup County, will be impacted by power line work scheduled to begin Wednesday, Aug. 3, 2011 (weather permitting).

To safely perform the work, it will be necessary for line crews to interrupt traffic along U.S. Route 23 in Raceland near the intersection of Caroline Road (at mile point 5.3) for approximately 15 minutes beginning about 10 A.M. Area drivers can expect traffic to be delayed as linemen work to pull new power lines across the highway and adjust them to proper, safe clearances. The work is being done to enhance electrical facilities and ties between Raceland and Flatwoods. Line crews will work to keep the traffic interruption as brief as possible.

In the event of inclement weather, the work will be rescheduled.

Kentucky Power has notified highway officials and the state police of the project and has obtained the necessary work-related permits. Professional traffic control personnel will be on site and utilized to help manage traffic and lane closures.
